# 5D experiment

- Point in Space
- Line in Space
- Body in Space
- Body in Time
- Body and Time in Assentation

# Explanation

- At the very first beginning there were nothing
- Then a point in Space was created
- As the point was moved to another point the line between the points was visible
- The lines created a body in space
- As the body was moved in time the navigation through space was possible
- Now we are able to add the Awareness to it and assent

# Processes

# Customer and Services

Customer Space

Services Space

# Customer

- Without having found a customer, who is willing to proceed and go into the new attention process we will not succeed. It's absolutely mandatory to show that this is a well working process. We need onsite experience and onsite information.

# Services

- From the best practises we can develop service offerings to be sold to other cutomers as well.

# AHIT Unternehmens Beratung

*Connecting Clouds*

The goal of **AHITUB** are excellent analytics of actual questions for cloud connection of companies
